

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](https://www.psaydn.org/)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

All students PK-6 were invited to attend the Closing the Gap Summer School Program. The program did not have any exclusionary factors. Students who participated in the Extended School Year Program were identified by IEP Teams considering the 7 Factors in Chapter

14.132(2). Students in grades 7-12 were offered free summer school and remediation classes using Plato software. Students were able to obtain credits needed for graduation.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	100	The focus of the summer program is to recoup lost skills as a result of the closure. In addition, the focus of the PK population will be to focus on socialization and learning to become a learner as they were not provided that opportunity. The school psychologist will help facilitate social skills, organizational skills and study skills.
Children with Disabilities	Academic Growth	12	Students eligible for the ESY program will be provided specially designed instruction to meet their individualized needs. Related services will be provided to those in need and the school psychologist will help facilitate social skills, organizational skills, and study skills.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

Highly qualified staff will provide additional learning opportunities for students during the summer school program. Learning needs will be identified and students will be grouped according to areas of need. Direct, explicit instruction will be provided.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
5	Internal Provider	General Education Teacher
2	Internal Provider	Special Education Teacher
3	Internal Provider	Instructional Assistant

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

--	--	--	--

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Classroom performance and classroom behavior as measured by teacher observations and teacher created data collection measures	Classroom performance and behavior will be assessed daily.	Students who participated in the summer learning program are expected to maintain satisfactory classroom performance as measured by daily classroom performance (grades, performance on state/local/district assessments) and classroom behavior (appropriate social interactions with others).
Classroom performance	end of the course window	Students who participated in the summer school program at the high school would be expected to obtain a passing grade in the course, resulting in grade promotion or credit recovery.

6. How will the LEA engage families in the summer school program?

The LEA will notify families of the summer program by letter home, emails and a phone call using the district one call now system. If a response was not received and the district feels the students would particularly benefit, school personnel will reach out personally to the family.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget

\$23,161.00

Allocation

\$23,161.00

Budget Over(Under) Allocation

\$0.00

Budget Summary

Function	Object	Amount	Description
1400 - Other Instructional Programs – Elementary / Secondary	100 - Salaries	\$18,390.00	Salaries for 4 teachers and 3 aides for the regular education summer program
1400 - Other Instructional Programs – Elementary / Secondary	200 - Benefits	\$4,771.00	Retirement and SS costs for the salary of 4 teachers and 3 aides for the regular education summer program
